**Objet:** Good Morning

Greetings,

I got your contact through the services of a private investigator I hired to find my late boss' relative. The investigator after several months of search believes you are "possibly" related to my late boss. I cannot ascertain how true this is, however, I have some important information to share with you but I would like to be sure your email address is correct before I go ahead.

Please confirm as soon as you get this message.

Regards,

Janet Malone
